It organizes May 27, 2022. Faculty for Business and Tourism from Budva Montenegro

<http://www.fbt-budva.com> from the **New Economy** cycle,

X traditional scientific conference on the subject:

"International technology cooperation, trade and innovation in supply chain after the Covid-19 pandemic"

The main contents / sectoral topics within the main cognitive direction could be found by the authors in the following indents:

- *A new economy in light of the changes caused by the pandemic,*
- *Innovation and economic development during a pandemic,*
- *Innovation and entrepreneurship conditioned by pandemic circumstances,*
- *Innovations in public and other health care systems,*
- *Sectoral innovations in today's pandemic circumstances: manufacturing, trade, services,*
- *Organizational innovations - tourism, catering, traffic,*
- *Demographic trends, pandemics and demographic policy innovations,*
- *Risk management in pandemic and post-pandemic conditions,*
- *Protecting the environment and natural resources is a (post) fall challenge,*
- *Software industry, pandemic and post-pandemic projections.*

Explanation

We conceived this year's theme in cooperation with several of our regular participants and the most zealous associates. It is concrete enough, but also focused on the widest possible selection of content within the basic topic and, we believe, relevant enough for today's (still pandemic) circumstances.

The global economy is going through many temptations, including those related to the challenge of returning to the post-pandemic future, which we expect to be positively different from the prepandemic one. First of all, by more successful risk control. That is why we have focused, above all, on change, restructuring and innovation. The proposed contents do not oblige any of you to strictly adhere to the proposed indents, but aim to provoke as many different aspects and methods of analysis as possible, all with the aim of tracing a desirable scenario of efficient and acceptable "return to the (post-pandemic) future". “.

Dear authors-participants,

As usual, 8 months in advance, we invite you to the traditional spring scientific-professional symposium organized by the Institute (organizer) and (co-organizers) Faculty of Business and Tourism Budva, West Ukrainian National University, Ternopil, Ukraine, University of Economy and Innovation in Lublin (WSEI) Poland and National Institute for Economic Research (Republic of Moldova).

The symposium is traditionally held in late spring, ie on May 27, 2022, in Budva, at the headquarters of the co-organizers. (Montenegro).

In the hope that you will join us, we hereby express our warm and collegial regards.

The title, abstracts and keywords must be submitted to:

e-mail: novi.economics.institut@gmail.com until 15.03.2022.

<https://economicsrs.com/index.php/eier/login>

Deadline for submission of complete articles is 05. 04. 2022.

<https://economicsrs.com/index.php/eier/login>

Selected articles that are subject to anonymous double review and that meet the requirements of **Scopus** and **ESCI** in accordance with the rules of writing and citing, respecting and agreeing with the authors, will be published in journals that are in Scopus.
